## IN THE CLAIMS

Please add the following claim:

24. (New) A process for registering indicia and lines of termination in a moving sheet, said process comprising steps of:

providing a generally planar sheet;

transporting said sheet in a first direction at a first velocity;

applying indicia to said sheet from a system adapted to apply indicia, movable in said first direction relative to said sheet, said system being movable at a second velocity;

imparting lines of termination to said sheet from a blade movable in said first direction relative to said sheet, said blade being movable at a third velocity, said lines of termination being spaced apart from said indicia in a spacing; and

varying one of said second or third velocities independent of the other to maintain said spacing within a desired range, wherein a path length of said moving sheet
